Attorney General Files Suit in District Court at Tulsa.

Tulsa, Ok.—In the District Court of Tulsa County the state of Oklahoma, by Attorney General West, filed suit Friday against the Prairie Oil and Gas Company to restrain that company from building an eight-inch pipe line from Coodya Bldg. in Washington County, Oklahoma, north to Caney, Kan., a distance of twenty-six miles. Every business interest in the oil belt of Oklahoma, particularly the producers and lessors of land, have been asking for a year for additional pipe line facilities and are incensed at the attempt of the state to put a stop to the work.

Secretary Garfield recently granted the Prairie Oil Company a permit to build the line, whereupon Attorney General West declared the Secretary of the Interior had gone beyond his jurisdiction and that he would enjoin the building of the line if it was started. Of the 25,000 barrels of oil produced daily on an average the first two weeks in April, less than half was taken by the purchasing agencies, of which the principle one is the Prairie Oil & Gas Company, because, it was announced, of inefficient handling facilities. The proposed line would have a capacity of 24,000 barrels about one-eighth of the present production, which would mean an increased disbursement of \$200,000 a month, it has been urged.
